ARTIST'S STATEMENT

Art has always been an immense love of mine. Though life led me through different careers for over two decades, it eventually brought me back to my true calling. Embracing this second chance wholeheartedly, I returned to painting—a passion rekindled after many years.

A self-taught artist, I find deep inspiration in the Post-Impressionist era, particularly in its rich textures and emotive landscapes. My work is a reflection of Earth, the very essence of life, captured in an abstract, expressionistic, and intuitive way. I paint lush landscapes infused with organic, surreal qualities, using oils and acrylics to explore the Earth's natural beauty in its metaphysical form. Each piece is a fusion of reality and imagination, where kaleidoscopic colors, shifting perspectives, and intricate motifs create an unorthodox yet harmonious vision of nature.

Through my art, I seek to celebrate Earth—the home we all share—and to evoke a deep connection with its beauty. My paintings are a tribute to the planet that sustains us, inviting viewers to experience the wonder and spirit of the world around us
